

Precious Coin

White Paper v1.0 EARLY DRAFT

January 15th, 2018

The Future of Investing

The first investment platform that aims to outperform Bitcoin on a risk-adjusted basis through state-of-the-art Algorithmic Trading powered by Artificial Intelligence.

INTRODUCTION

With the rise of the cryptocurrencies and Blockchain technology, new opportunities are arising in the financial system.

The cryptocurrency market is currently worth over \$500B, which is a staggering number. But in contrast to the traditional capital markets - \$500 Billion is a small number.

Soon, the money from the traditional type of economy will flow into cryptocurrencies for speculative purposes or gaining capital profit, or simply by supporting projects that are built on decentralized platforms.

Investors simply don't want to miss to hop on this train.

Precious Coin take what works from the traditional financial system and remove what doesn't, and provides the easiest opportunity to enter the cryptocurrency trading market in a professional way.

The cryptocurrency market is currently not as developed as the old-world financial markets, and that's why there are still so many opportunities for investors looking for a great return, not achieved in the traditional markets.

As the digital currency market progress and grow, more professionals will come to the market. The sector is now in a great position to further strengthen and grow.

What is Precious Coin?

Precious Coin is the first cryptocurrency investing platform that aims to outperform Bitcoin on a risk-adjusted basis. Just like Bitcoin, Precious Coin is based on open-source Blockchain technology for secure, transparent, seamless and fast transactions. The core of Precious Coin is state-of-the-art algorithmic trading aided by artificial intelligence.

Once you own Precious Coin, it behaves like an interest bearing asset: they possess value over time and can be traded on exchanges. In the future you'll be able to use it for pure financial transactions.

We use our extensive knowledge of cryptocurrencies and blockchain technology to develop successful investment strategies. Our goal is to generate alpha for our clients while minimising risk. We've traded successfully with our algorithms since 2013, and have now decided to open up for outside capital.

Precious Coin have outperformed Bitcoin during 2017.

THE ISSUE

Algorithmic trading and HFT (High Frequency Trading) used by banks and hedge funds have never been accessible for retail investors. The entry-barrier for such technology is enormous.

Most people have been trying to trade cryptocurrencies on their own, but very few of them are successful because the cryptocurrency market is extremely volatile and unpredictable. To be a good trader you need years of experience, and have the right mind-set, even with that – frankly it's a lot of stress to trade on your own. In fact, 90% of traders lose money trading by themselves.

Even people that don't trade but want to hedge their positions against volatility don't have many options.

Over 80% of the total trading volume in the traditional financial market (Wall Street) is made by algorithmic HFT (High-Frequency Trading) robots. That number is only 40% in the cryptocurrency market which make it the perfect time to enter this market - as it's not as crowded, which make it easier to find opportunities in the market to make money.

THE SOLUTION

In contrast to other hedge funds, crypto funds or similar. Precious Coin platform is open for all and the entry-barrier is low (\$0.2 USD).

Trading is based on our own trading platform which is based on algorithmic trading powered by artificial intelligence.

The trading system has more than 4 years of research and development behind it, and is now finally open for outside capital.

Investment strategies used by Precious Coin:

- **Arbitrage**
- **Market Making**
- **Prediction Trading**

By providing liquidity and matching orders, Precious Coin are increasing market efficiency and connecting crypto markets, while earning a fraction on every transaction.

Precious Coin will use a blend of active strategies including leveraged trading, algorithmic schemes, and investing in the sale of tokens by blockchain start-ups (ICOs), These strategies will help Precious Coin outperform Bitcoin at lower volatility.

The robots only make short-term trades, and all trading is automated and occurs daily ranging from milliseconds to hours.

Connected to the largest trading crypto platforms, already

Precious Coin is connected via its API to the largest and reputable trading crypto platforms, like Goesoteric, Bitpay Exchange, Coinexchange and also OTC (Over-the-Counter exchanges). These are advanced exchanges for professional traders and investors.

We only work with reputable exchanges and only trading cryptocurrencies worth at least \$1 billion. By being connected to many exchanges in the same time the robots can make trades between exchanges in milliseconds.

Our algorithms are currently integrated to the following exchanges:

Precious Coin FACT SHEET

Maximum Supply: 90 Million

Premined Coins: 18 Million

Initial Price: **\$0.2**

Start Date: 15th January 2018

Soft Launch: 26th February 2018

Final Launch: April 2018

Pre-Launch Funds Distribution / Allocation

Trading / Underlying Assets: **50%**

Marketing: **20%**

Development: **20%**

Operational Expenses: **10%**

LENDING

This investment option involves profiting from Precious Coin algorithmic trading bots. You lend liquidity to our algorithmic trading bots and you earn interest every day.

You will receive daily interest based on the performance of the algorithmic trading bots. You can track the performance daily on the dashboard. Upon investment term completion, you will receive your **capital back**.

Our lending platform is very unique in the sense that you have the option to choose which currency you want to invest and get back.

However, we privilege the ones that invest more money because that is increasing the liquidity for the arbitrage and market making strategies.

Risk disclaimer: The return is not guaranteed; it's depending on the performance of Precious Coin algorithms. Precious Coin investment is a speculative investment and involves high degrees of risk. Investors must have the financial ability, experience and willingness to bear the risks of an investment. Past performance is not necessarily indicative of future results.

STAKING

Staking Precious Coin is a great option to earn more.

Anyone holding Precious Coin in their wallet will receive interest on their staking balance in return for helping maintain security of the network. You can do it by either the Precious Coin Web wallet or Desktop wallet launching April 2018.

Period	Staking Rate
First Year	10% per month
Second Year	5% per month
Third Year	3% per Month

* PoS Minimum Staking Time is 24 hours. PoS Maximum Staking Time is Unlimited*

BUY-BACK PLAN

We're going to buy back Precious Coin coins in the open market every day after the final launch. The reason for that is; We are so confident in Precious Coin long-term prospect and value - that we have decided to buy back coins at a rapid rate once it hits the open market after the final launch.

This will make the price of the coin more stable and increase in price over time. We will be buying tokens in the open market every day at market price.

10% Yearly Buy-Back Plan

More than 10% of the outstanding coins will be bought each year. Our current strong capital position will allow us this. This will also increase the value of the coins and make it more stable

What is a Buy-back plan?

A buyback allows companies to invest in themselves. By reducing the number of coins outstanding on the market, buybacks increase the proportion of coins owned by enduring investors. A company may feel its coins are undervalued and buy them back to provide investors with a return, and because the company is bullish on its current operations.

Companies buy back coins for a number of reasons, such as to increase the value of coins still available by reducing the supply of them or eliminate any threats by coinholders who may be looking for a controlling stake.

COIN SPECIFICATIONS

Name	Precious Coin
Symbol	PRE
Type	PoW/PoS Hybrid Blockchain
PoW Algorithm	X11/Scrypt
Block time	10 Minutes
PoS Reward	12% per Annum
PoS Minimum Staking Time	10 Days
PoS Maximum Staking Time	90 Days
Block Reward	250 Coins
Max Supply	90 Million XPC
Coins Pre-mined	18 Million XPC

THE TEAM

Precious Coin is led by a team of quants, professional traders and programmers with years of experience in investment banking, technology, fintech, Blockchain and AI (Artificial Intelligence).

A big part of our team have previously worked at: Credit Suisse, Morgan Stanley, Julius Bär, Google, Saxo Bank with accumulated trading and technology experience of over 60 years.

Based in Zug, Switzerland

The majority of the team is based in Zug, Switzerland - called the Blockchain capital of the world, also known as the most Blockchain-friendly city in the world.

ROADMAP

July 2017

- Successful Live Trading
- Development of algorithms and trading systems.

September 2017

- Building Platform for outside capital.

November 2017

- Successful Beta test of the Investment platform with selected testers

January 2018

- Crowdsale starts

Initial Price: \$0.2

April 2018

- Lending Platform Starts
- Listing on External Exchanges
(Coinexchange.io, Goesoteric.com ,
Bitpayexchange.com etc)

Price Target: \$0.35–\$0.50

September 2018

- Trading Starts on Exchanges
- Online Shopping Portals Acceptance
- Desktop/Mobile Wallet
- Aggressive Marketing campaigns
- Listing on Several Exchanges
- Precious Coin Mining Pool

Price Target: \$0.50-\$1

December 2018

- Robo Advisory Service
- Institutional Investors
- Listing on Major Exchanges

Price Target: \$2-\$5
